*Šo dziesmiņu parasti izpilda trīs reizes: pirmo reizi klusu, otro reizi stiprāk un trešo – pavisam klusu, kā attālinoties. (Redaktora piezīme)*

This song usually is sung three times: the first time low, the second time louder, the third time very low, as though receding. (Editor's note)

There is no sea without depth,  
Come, oh come!  
Myrtle and lilies,  
Come, oh come!
